30th March 2022	Networking Document and Class Diagram	Kanika provided the revised version of the Networking Document and Class Diagram

Our GUI has changed little from iteration 3, as result of it our class diagram, and sequence diagram for placing a king meeple has also changed. We have updated both of those diagrams and it can be seen in iteration 4.

One of the group members was trying to make up the GUI with pictures, but was not successful until iteration 3, but now we are successful in making up the GUI with pictures so that's why our GUI is changed.
