Make a move use case was changed to Place Starting tile because we feel placing starting tile should be the first thing that needs to be done and is more appropriate to implement at this stage, so we decide to use Place Starting Tile as a use case.

Save and Exit use case was changed to Place King Meeple because we feel like Save and Exit is very huge functionality at this time to implement, so considering the time limit, we decide to make Place King Meeple as a use case.
